## New Sixpack Solutions for Motor Drives and UPS

*Complete Sixpack range from 10A to 150A in four different housings*

**Munich, Germany** – May 27, 2008 – Vincotech, the former Electronic Modules division of Tyco Electronics, is releasing new sixpack families for the motor drive and uninterruptable power supply markets. With this latest generation of sixpack modules in four different housings, Vincotech has completed its sixpack spectrum from 10A to 150A.

Equipped with the latest IGBT technology for very low conduction losses, the four families of sixpacks cover every need in three phase motor drive and UPS inverting up to 30kW. High performance versions using an improved substrate are optional. Vincotech's sixpacks are available in the *flow0* and *flow1* housings without baseplate for low/medium power, and in the *flow2* housing with baseplate for higher power. The baseplate-less *flow90* housing, especially designed for a 90° mounting angle between the heatsink and the PCB, rounds up the portfolio. Vincotech also offers the accompanying rectifiers (P64x, P59x, P60x and P70x families).

The features of the Sixpack range are:

- High current capability due latest IGBT technology: IGBT4 (1200V) and IGBT3 (600V)
- Seamless power range from 10A to 150A
- Four different housings: *flow0*, *flow1*, *flow2* and *flow90*
- *flow90* housing for bookshelf inverter applications (90° angle between heatsink and PCB)
- Optional improved performance via AlN substrate

<i>flow0</i> P86x family	<i>flow1</i> P82x family
	
600V: 10A to 75A 1200V: 10A to 35A	600V: 50A to 100A 1200V: 35A to 75A

<i>flow2</i> P68x family	<i>flow90</i> P70x family
	
600V: - 1200V: 75A to 150A	600V: 30A to 75A 1200V: 15A to 35A

## **ABOUT VINCOTECH**

Vincotech develops and manufactures subsystems and electronic components and offers manufacturing services geared to help customers to master complex challenges in electronics integration. Vincotech's extensive portfolio encompasses standard and tailored solutions, engineering services, and technical support for customers worldwide. These products and services contribute to sustainable, environmentally sound solutions that help modern society embrace mega-trends and explore new avenues.

With approximately 600 employees worldwide, backed by vast experience and a long history in electronics integration, Vincotech leverages these assets to help customers achieve maximum market success.
