Now available! *flowPIM* with IGBT4 technology

flowPIM families (1200V) equipped with the latest chip technology

Munich, Germany – May 27, 2008 – Vincotech, the former Electronic Modules division of Tyco Electronics, has the *flowPIM* 1 3rd gen (P58X-A41) with IGBT4 at 1200V, which rounds up its PIM product portfolio.

The *flowPIM*s 0, 1 and 2 in 1200V are equipped with IGBT4 for low saturation losses and improved EMC behaviour. All modules of Vincotech are based on low inductance layout, clever pinout and very compact housings. The smallest PIM Module, the *flowPIM* 0 (P84X), is also available in 12mm height for very compact devices. In the next biggest family, the *flowPIM* 1 (P58X-A41), we have extended the output power by 10% due to an AIN DCB. Last but not least, the *flowPIM* 2 (P76X), a baseplate module, rounds up the PIM product spectrum with 100A at 1200V on a 108x47mm footprint.

***flowPIM* 0 3rd gen**

600V/ 10-30A (IGBT3)
1200V/ 6-15A (IGBT4)
12 or 17x66x33mm

***flowPIM* 1 3rd gen**

600V/ 30-75A (IGBT3)
1200V/ 15-40A (IGBT4)
17x82x38mm

***flowPIM* 2 3rd gen**

600V/ 50-100A (IGBT3)
1200V/ 35-100A (IGBT4)
17x108x47mm

ABOUT VINCOTECH

Vincotech develops and manufactures subsystems and electronic components and offers manufacturing services geared to help customers to master complex challenges in electronics integration. Vincotech's extensive portfolio encompasses standard and tailored solutions, engineering services, and technical support for customers worldwide. These products and services contribute to sustainable, environmentally sound solutions that help modern society embrace mega-trends and explore new avenues.

With approximately 600 employees worldwide, backed by vast experience and a long history in electronics integration, Vincotech leverages these assets to help customers achieve maximum market success.
